DECLARATION OF WILLIAM G. KERR, Ph.D., UNDER 37 C.F.R. §1.132

Sir:

I, William G. Kerr, Ph.D., of University of South Florida, hereby declare:

THAT, my *curriculum vitae* is attached hereto as Exhibit A;

THAT, I am a named inventor on the above-referenced patent application (hereinafter referred to as "the patent application");

THAT, through my years of research, I have kept up to date on the technical literature and maintained contact with experts in the field by participating in professional meetings and seminars, and by direct personal contact. As a result, I am familiar with the general level of skill of those working in the fields of immunology, stem cell biology, and cell signaling;

THAT, I have read and understood the specification and claims of the application and the Office Actions dated November 29, 2004 and August 9, 2005;

AND, being thus duly qualified, do further declare:

1. At page 6 of the current Office Action, the Examiner indicates that the patent application does not demonstrate that introduction of anti-SHIP shRNA results in proliferation of human/mouse
